Progression in language, vocabulary and key ideas: a summary of a select shortlist of keywords and core concepts. This table shows how learning across the age groups develops and uses the language of religious study and of particular religions in increasing depth. The selected terms are a *brief minimum*. The syllabus uses these key words in our long term plans for 5-14s, contributing to well sequenced, coherent progression. This is informed by OFSTED's interest in ambitious curriculum, rich knowledge and progression in thinking and substantive knowledge.

This suggested concept development plan for RE is a very basic tool; using the key words specified here might follow a plan where 3 religions are studied 5-7 and 4 each in KS2 and 3. Teachers do not have to teach all these words for all these religions. The lists are cumulative – begin on the left and move right. The key question here is not 'do the pupils know the words?' but 'Can the pupils use the language and ideas of religions and religious study to explain their understanding?' Each medium term plan includes a suitable small number of key words, concepts or big ideas to teach and for learners to use.
